- Ideal for high-end applications and architectural accents
- Made of 90% copper and 10% zinc
- A metal screen that provides strength and durability
- Excellent for use in screen doors, windows and porches
- A unique alternative to aluminum and fiberglass screening

# Phifer Bronze Screen

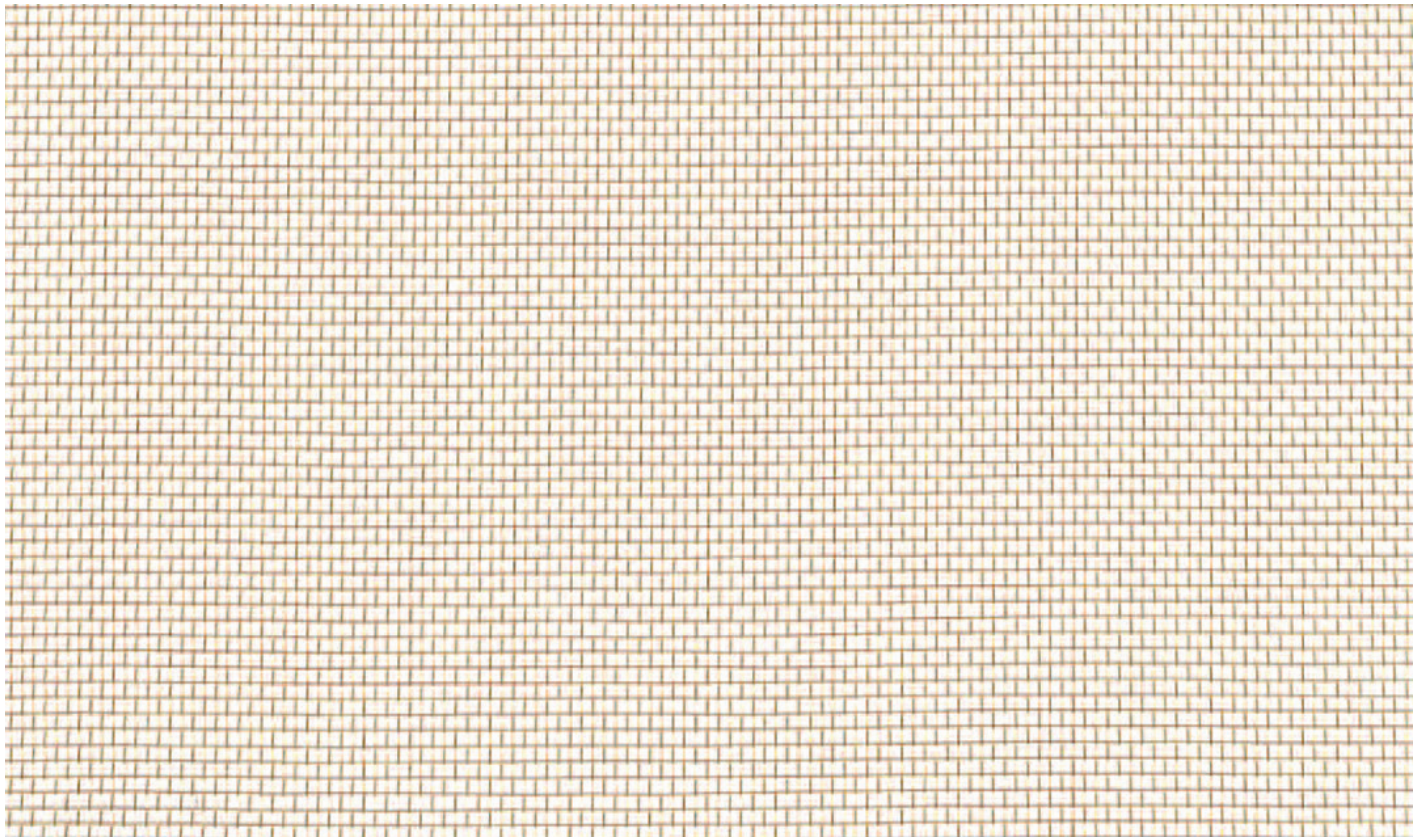

## Specifications

Phifer Bronze Screen is not only an effective way to control pests, but can also revive the elegant charm of past years. In its original state, Phifer Bronze Screen is a brite copper color, but weathers to a beautiful dark bronze finish. Phifer Bronze Screen will coordinate with copper architectural accents such as roofing, dormers, gutters and is excellent for use in screen doors, windows and porches. Made of 90% copper, this metal screen provides strength and durability.
